SOME APPROPRIATIONS REDUCED.

THE BOARD OF EDUCATION THE POINT OF ATTACK-

THE MANDAMUS ABANDONED, Justices Smith and Rellly asked the Board of yesterday for an addition of \$2,000 to the ap-on for the police justices in order to provide for editional stenographer. The appropriation was a Mr. Callahan asked for an increase for the Bureau cumbrances, as he said it could do practically nothing in removing incumbrances, owing to lack of funds members of the Board thought that the trouble was inefficiency of the Bureau, and no more money was st. the inefficiency of the Bureau, and no more money was granted. C. W. Dayton and Alderman Mooney asked for money for electric lights in the annexed district. President Coleman said that the present charge of \$255 for electric light used by the city was outrageous, and he did not think more money should be expended in that way. The Board agreed with him. In considering the stationary accounts all the members agreed that some of the courts and public offices were wasteful in that particular, and it was agreed that the accounts of each department and court for stationery should be published in The City Becord. The Commissioners of Accounts sent in a long communication concerning the Health Department, which was merely a repetition of previous statements.

The Board then went over the stems in the estimate of the Board of Education. The appropriation for salaries in the Normal College was cut down to \$91,000 of which in the Normal College was cut down to \$91,000 of which will compel a reduction of \$7.000 in salaries of professors and teachers. The Mayor thought that the salary of the processors was too high, and the other members of the Board agreed with him. The amount for salaries of officers and clerks of the Board of Education was fixed at \$35,237, which will compel a small reduction. Mayor Grace thought that the salary of the auditor, \$5,500, which is \$1,500 more than the salary of the auditor, \$5,500, which is \$1,500 more than the salary of the duditor of the clip, should be reduced, and that other high salaries should also come down. But Mr. Nooney said that he was not also come down. But Mr. Nooney said that he was not also come down. But Mr. Nooney said that he was not also come down. But Mr. Nooney said that he was not also \$1,000 more than the salary of the fine salaries of the cut off too much from the Board of Education. The sagaregate amount for the collect was the partments and had just given the policy justices what they asked for, it would not look well to cut off too much from the Board of Educatio

gate."
"Will the appropriations granted by the Board of Education this year affect the salaries of teachers!"
"I cannot say as yet. We asked for \$2,750,000, the same as last year, and for a special appropriation of \$50,000. The last is for 100 teachers in new schools. This is objected to, and if not granted the teachers will have to be paid from the total amount, or the new schools will have to wait another year to be opened."

A SERIES OF POLICE AND HOSPITAL BLUNDERS. The new police patrol wagon in Brooklyn ran over eter Robertson, of No. 209 Ryerson-st., on Christ mas morning, and by a series of police and ho-pital dunders he is in a critical condition. Mr. Robertson is an old man and was crossing Myrtle ave. at Lawrence-st, as the patrol wagon was driven past at a gallop. As he is deaf he did not hear the gong, and was knocked down and run over. He received injuries to his head and legs. Policeman Durham, who
grove the patrol wagon, picked him up and he was
jemo ed to the Long Island College Hospital. After
his head was bandaged he was allowed to go home.
About six hours after the accident his family
learned of it, and on sending to the hospital found
that he had started for home. Owing to the shock,
he wandered about the streets until a policeman took
him to the Butler Street Police Staton, where an
ambulance surgeon again examined him, and he was
looked up for drankenness. His friends found him in
a cedi, and upon giving a bond of \$100 for his appearance in court, were allowed to take him home.

GET OUT THE SKATES FOR TO-MORROW. Boys and girls who skate should get their skates ready to-day, for to-morrow the ball will be hoisted in Central Park and the lakes will be thrown open to the skaters. Yesterday morning Superintendent Par-sons made a careful inspection of the ice on all the lakes. He found it solid and of an average thickness of three inches and a haif. The standard required of three inches and a half. The standard required before skating is allowed is four inches. Mr. Parsons thought that with moderately cold weather to night and to-morrow another inch would be adeed. The cold increased last night, however. The cold wave from the Northwest sunk the mercury rapidly, so that it was decided that the ice would be fully five inches thick by to-morrow morning.

Van Cortland Lake has already a solid crust four inches thick, and yesterday hundreds of skaters went up on the Sixth Avenue citvated road, taking the Northern road to the lake. The ice was clear and smooth and the skating excellent. In Central Park the skate houses on the Harlem Lake and the large lake are complete.

A CASE FOR SUPERINTENDENT MURRAY. Policeman William J. Murray was the complainant in the Court of Special Sessions yesterday against John Nolan for as Court of Special Sessions yesterday against John Nolan for as ault. As the case went on, it was developed that Nolan was cault. As the case went on, it was developed that Nolan was the party assaulted. Murray is attached to the Thirty-second Friednet. He heard on thristmas Eve that some one had reported tun at the station for being drunk. He was only partially so, if at all, and was sent cut on post again. Going down to the cable Itoal flotel, he net a number of his friends, and, it was alleged, told them to go inside "and get full" at his expense. One of the group would not go, and Murray clubbed him till the man jumped a fence. He was followed by two bullets from the revolver of the officer. The officer taken went down the road till he met. John Nolan and Hugh Smith, and accurang the latter of "giving him away," he began to club him. Nolan interfered, and peace was made. The trio then went to a shanty in One-hundred and-forty-inith-st, and Murray Said: "If I am caught to-night, I'll take you fellows in, and if you're fined I'll pay the dust." Nolan says that the man must be crasy, for he insisted on clubbing them to the sation for no apparent reason. Counsel brought out the fact that Murray had clubbed Nolan in the presence of the exceens at the deak m the station. The court discharged Nolan, and expressed the opin on that the Police Commissioners ought to attend to the case of Murray.

TO PAY OFF PART OF THE CITY DEBT. Controller Loew, at the meeting of the Sinking Fund Commissioners yesterday, presented a paper stating that the revenues from the Sinking Fund for 1887 will be \$7,325,000, and thus stocks and bonds, which constitute a preferred charge on the Sinking Fund, amounting to \$5.149.271, will become due in 1887. Under the law the Commissioners of the Sinking Fund have power to pay the part of the city debt becoming due in 1887, amounting to \$5,125,400, and this can be done without additional taxation. A resolution to that effect was passed by the Boars. On the recommendation of the Con-troller a warrant for \$500,500 was drawn, transferring that amount from the Sinking Fund to the redemption of the city debt.

THE NEW FIRE HEADQUARTERS. At the close of business hours on Friday the old Fire fall in Mercer-st, will cease to be occupied as headquart-

On Friday a notice was served on him that the Fire Commissioners would finish the work and charge the cost to him the determined to fight and barred up the building. Foreman Bhaw, who was superintending the moving of furniture into the building, was obliged to resort to some force to get a load of furniture admitted. Then one of the commissioners and the counsel of the Department appeared, and Duffy surrendered the building.

REFLECTING ON MR. KEUTGEN'S DIGNITY. TROUBLE IN THE LONG ISLAND COLLEGE ROSPITAL

-YOUNG PHYSICIANS THREATEN TO GO. Serious trouble has arisen in the Long Island College Hospital in Brooklyn between F. W. Keutgen, the chairman of the Executive Committee, and some of the young physicians. These doctors are called "internes," and two of them alternate in the positions of house surgeon and house physician. About a week ago Dr. Dwight Mercaness, one of the "internes," who was acting as house physician. sician, opened a letter addressed "House Physician."

Mr. Keutzen soon afterward saw the letter, called Dr. Merenness to him and said authoritatively that he desired all letters addressed to the house surreon, house physician, or superintendent, to be turned over to him unopened.

They had a brief discussion. Mr. Keutgen was so peremptory that Dr. Merenness finally said no more, and turned away. When he had gone a short distance down the corridor he began to whistle. Mr. Keutgen called him back and rebuked him for whistling and said it reflected upon his dignity. Dr. Merenness protested that he meant nothing of the kind. After he had gone to his room he thought the matter over and the result was that two or three days afterward he sent the following note to Mr. Keutgen: sician, opened a letter addressed "House Physician."

Mr. Kentgen:

Sin: It is very natural for me, when annoyed or insuited, to whistie. I half apologized to you the other day for m y action on leaving your presonce, but I have since thought the matter over and I have concluded that I have the right to whistie when and where I please, and in the future I shall proceed to do so without reference to your "dignity." I remain,

Divigint Merrenses,

do so without reference to your "dignity." I remain,

The result of this was that Mr. Keutgen carried the
matter to the Board of Revents and wanted Dr.
Merenness dismissed. A week's notice was given him
that at the end of that time his services
would no longer be required. Drs. Arrowsmith and Conklin, the former an "interne," and the other an ambulance surgeon, thereupon resigned, their resignations to go
into effect at the end of the week. Efforts have been made
to get them to remain, but they refuse to do so unless Dr.
Merenness also is recalled.

Mr. Keutgen refused to state the cause of the trouble in
the hospital, but said he would not permit any trifling in
the institution or any looseness in the management. The
cause of the difficulty, he tinally said, was "smoking in
the building, playing a musical instrument or something
of the kind."

THE CABLE COMPANY'S LATEST STEP.

This order was obtained in pursuance of the announcements made by the company's counsel immediately after the decision of the Court of Appeals was handed down. The company alleges that by that decision the validity of its charter was confirmed and that all that is necessary Its charter was confirmed and that all that is necessary for it now to do is to reconvene its original commission—which adjourned without day and is alleged to be still alive—to have that body pass once more on details of plans in accordance with the suggestions made by the Court of Appeals, and to get a report in accordance therewith approved by the General Term. The present order, it is supposed, has been procured to enable the company to act in the direction thus outlined.

IS THE PATRONAGE FOR CLEVELAND OR HILL! Deputy Collector N. B. Bartram died on Sunday and was buried yesterday. He was at the head of the Fifth Division at the Custom House and since his sickness began Deputy Collector N. G. Williams has performed his duties. Yesterday Deputy Collector Williams occupied another desk in the rotunda but was discharging the same duties as for several days in addition to giving close at-tention to a smooth-faced man, with dark-brown curly hair, full cheeks and stocky form, who sat in a chair beside Mr. Williams, having in his hand an open book containing the statutes relating to the Revenue Laws. This strange face had just appeared in the Custom House, and the man is said to have come to the city on Monday night with Governor Hill. He is Jeremiah J. O'Connor, who has served in Elmira for twenty-two years, was the Chamberlain of that city in 1876, 1877 and 1878, and a Member of the Assembly

in 1876, 1877 and 1878, and a Member of the Assembly in 1883.

Collector Magone said that be had nominated Mr. O'Conner as deputy collector to fill the vacancy caused by Colonel Bartram's death, but that General Williams would take Colonel Bartram's place and Mr. O'Conner one of the minor offices. It remains to be seen whether Secretary Manning will approve Governor Hill's "personal frend," or whether Colonel Lamont, President Cleve land's private secretary, will deteat the Hill-Magone combination by ordering another to be appointed, as he did when he ordered that Charles P. McClelland be appointed deputy collector in charge of the Seventh Division, in place of William Peters, of Ogdensburg, whom Collector Magone had appointed. The question is whether the Administration or Governor Hill is to secure the patronage of the Custom House.

tion. President Borden, of the Board, said that one reason given by the trustees of the museums for not open reason given by the crustees, in the had not the funds for the auditional expense and that another reason was that some of the exhibits given to the museums were conditional on their not being dispayed on Sandays.

Mr. Crimmins thought that if the first objection was provided for the other might be removed. He said that there are great crowns at the memagerie on Sundays, but they are always orderly. It was suggested that the museums might be opened from I to 6 p. m. on sunday and \$2.500 for each would cover the expenses.

The Mayor welcomet them and then excused himself, as he had to meet with the Board of Estimate, Mr. Peckham was chosen chairman and Mr. Alhson secretary. Mr. Sterne suggested that those present be divided into various committees. In this way all could be made available, and a large amount of necessary information obtained. Mr. Ivins wanted a committee on organization. Mr. Anderson sold that it would be well to appoint a committee of three to report the best method to be pursued and the scope of the work. Mr. Root presented a resolution embodying Mr. Anderson's suggestion and this was adopted. Mr. Sterne suggested that it would be well to have the services of Sidney DeKay, the secretary of the commission appointed by Governor Tiblen in 1876 to prepare matter to be submitted to a constitutional convention.

The chairman appointed Messes, Sterne, Root and Anderson as the committee provided for in Mr. Root's resolution. It was agreed that permanent quarters will be necessary and an effort will be made to procure a room in the building of the Bar Association. present yesterday Elinu Root, Wheeler H. Peckham, E.

RAID ON "THE GLASS BARREL."

Under instruction of Superintendent Murray, Detectives Collins and McCord, of the Central Office, and De-tective Bissert, of the Fifth Street Station, on Monday tective Bissert, of the Fifth Street Station, on Monday night made a descent on the disreputable resort known as "The Glass Barrel," in the basement of No. 61 Fourthave. The place has long been a scandal in the neighborhood. There was a general stampede when the detectives presented themselves, but John Wilson and Joseph williams, the proprietors, the bartenders. The plane-player and several others were arrested. The prisoners were arraigned before Justice Kilbreth yesterday at Essex Market Police Court. The alleged proprietors were required to furnish \$500 and \$300 respectively for trial for keeping a disorderly house and \$100 cach for violating the Excise Law. The bartenders were held for the latter offence in the same sum.

FOR THE MURDER OF MRS. M'PHERSON.

TWO MEN ARRESTED ON SU-PICION-THE POLICE IN SEARCH OF A THIRD-THE EVIDENCE. George and William Fowler, the two young brothers who were arrested on Monday night on suspiction of having had a hand in the death of Widow McPherson, who died on Friday in Bellevue Hospital, will appear this morning in the Yorkville Police Court, together with Joseph Moore, who told the story that led to their arrest. The three men appeared in court yesterday morning, but vere remanded for examination to-day. This delay was for the purpose, it was said, of giving the police more time o find a third man, who took part in the alleged murder. Mrs. McPherson kept a little grocery store at No. 1,319 Second ave. She was popularly credited with having a snug amount of money. On the evening of December 6. about 9 o'clock, a little girl, Kattie Mechan, entered the shop and found the widow standing by the counter, covered with blood. The widow could not speak, and was

ered with blood. The widow canning by the speak, and was eventually removed to Bellevue Hospital, where she was found to have received eight wounds, and where she died on Friday.

The police ascribed her wounds to an accident; they said that she fell on a coal seuttle. But her brother, John McLean, and her neighbors firmly believe that she was murdered. The police apparently still stick to the accident theory.

Moore is in the employ of Thomas Duffy, an expressman, who has a stable in East Sixty-eighth-st. He told his employer two weeks ago that he overheard some young men talking about the murder one evening a week after it happened. He said that the one who killed the widow explained how he did it. He asked her for five cents worth of melasses, and as she bent over to get it, he hit her on the head with a soda-water bottle, and then got what money he could. Another of the party said: "It was too had to sing her," and Moore says he heard another one reply: "Well, we had to have the money."

Moore was drunk when he told this story, and that is the reason why Duffy did not inform the police before. When Moore was arrested he admitted that he had told such a story, but refused to repeat it, and practically admitted that it was false. A broken trank that looks as if it had been rifled and a bottle with blood-stains on it found in the shop are other proofs that McLean possesses that his sister was murdered.

THE COURTS.

NESBITT OUT; VICKERMAN STILL IN JAIL. Justice Barrett, of the Supreme Court, yesterday made an rier remaining the ball of James W. Vickerman and Thomas J. Sesbitt, who were arrested at the suit of Jacob Rosenberg. Neshitt, who were arrested at the suit of Jacob Rosenberg, the jurer in the McQuade case, who has sued them for damiages for alleged slander. The Judge said: "The proofs of Vickerman's malice are furnished in numerous affidavits, and the ball in his case would not be reduced but for the law of 1856 with reference to the extent of imprisonment in civil cases. As the law now stands it is certainly questionable whether a party should be required to furnish under the present circumstances greater ball than if he were indicted for missiemeanor. As Vickerman cannot give the ball required of him, I think it therefore proper to reduce it to some still more reasonable sum, though by no means thereby intimating that on the merits he has civier instified or extennated his slander against Mr. Rosenberg. The ball in his case will be reduced to \$2,000. In Nesbutt's case it should be reduced to \$1,000, as the case against him is decidedly weaker on the same of malice."

WILL THE MUSEUMS BE OPENED ON SUNDAYS I
The question of opening the museums on Sunday was brought up in the meeting of the Board of Estimate and Apportionment on Monday and \$5,000 will probably be granted conditionally to the Park Board for the museums for the additional expense of opening them on sundays. Last year, when the subject was discussed, the members of the Park Board was discussed, the members of the Park Board, said that one on last Friday, took place at St. Thomas's Protestant

DR. M'GLYNN SHOWS NO SIGN OF GOING. The statement made in THE TRIBUNE yesterday that Father McGlynn had been suspended by the Archbishop has been abundantly confirmed. He is still at the nominal head of St. Stephen's, in the sense that no one has nal head of 8t. Stephen's, in the sense that no one has superseded him, but he can no longer officiate as paster of the diocese. How long he will remain in his present position it is difficult even for his immediate superiors to say, but it is certain that further steps will be taken in his case within a reasonably short time unless he goes to Rome. He still refuses to talk, but so far as can be learned from the steamsnip offices he has not yet made definite arrangements about sailing.

A SMUGGLER ROBBED IN THE STREET. Giovanni Roderico, a seaman of the ship Treanor, lying off Pier No. 18, East River, came ashore on Monday evening with a quantity of rum and several boxes of eigars, on ing with a quantity of run and several boxes of cigars, on which no duties had been paid. He disposed of these articles for \$25.05. On his way back to the ship, he was attacked by three men in Madison-st., who robbed him of the money. Joseph Cunningham, age seventeen, of No. 99 Madison-st., the alleged principal in the tobbery, was arrested and was committed for examination without bail by Justice Kilbreth yesterday at Essex Market Court. SCHEDULES OF C. M. FOSTER & CO.

The schedules of Chester M. Foster and Charles E. Foster, composing the firm of C. M. Foster & Co., importers of upholstery goods at Nos. 134 and 136 Grand-st., in their assign. ment to Frank P. POLICEMEN MUST UNDERSTAND THE LAW.

Police Superintendent Murray yesterday called the captains to headquarters and gave them verbal instruction regarding to headquarters and gave them vertous matter and represent the arrest of fugitives from justice and the transfer of prisoners onto the State. He read the law on the subject and explained how a police officer might, easily make himself liable to arrest and impresonment by failing to observe the routine described in the law. A case in nont has come to his notice within a few data, which served to show the need for a better understanding of the law as amended last winter. AFTER THE FINER FORCES OF NATURE.

A COLD WAVE BEHIND TIME, OR OFF THE TRACK. Those who love seasonable weather were delighted with the crisp and bracing atmosphere yesterday. It was not too cold, but just cold enough. Would be prophets predicted that a cold wave was bearing down on the city from the binzar-brewing regions of the Northwest. The rigan -ervice observations, nowever, do not ocar out such predictions and while it may be a true colder to-day, it is not probable that the mercury will drop more than a few degrees. FAITH CURES FAIRLY BEATEN. Still further reductions in A Mont Interesting Letter from the Chaplain of the Al-

bany Penttentiary. From The Albany Express. I make the following statement in simple justice to you and to the public at large. I look upon the facts I am attent to relate as among the most remarkable since the age of miracles. Had I heard them from another I should have asked for proof, yet every word may be relied upon as absolutely

For many years my wife had been the victim of nervou

Dyspepsia, of the chronic, distressing and apparently incura-ble type, from which so many of her sex suffer, languish and die. It was all the worse because the tendency to it was inherited. She had been under the systematic treatment of many of the best physicians in New York and Brooklyn and elsewhere for twenty years with only temporary relief.

Although bad enough at all times, she was a ways worse in
the Autumn—and the eating of fruits (often recommended to
dyspoptics) in her case produced flatulency and excessive
pain. In fact there were few, if any, kinds of food that did not distress her, so diseased, sensitive and torpid were all the organs of digestion. The usual symptoms of dyspepsia, with its concomitant aliments, were all present—bad taste in the mouth, dull eyes, cold feet and hands, the sense of a load upon month, dull eyes, cold feet and hands, the sense a siddliness, the stowach, tenderness on pressure, indigestion, giddliness, great weakness and prostration, and fugitive pains in the sides, chest and back. If there was ever a case of Dyspepsia which to all intents and purposes seemed alto rether hopeless it was hers. I have often risen in the night and administered stimulants merely for the sake of the slight and transient stimulants merely for the sake of the sign.

Tolief they gave. What her aggregate experience was I may safely leave to the imagination of those who have suffered in a similar way. Certainly no one else can begin to understand it. After she had undergone about five years of this apparently encless misery, did she take a turn for the better! Far ently enaless misery, slid she take a turn for the better! Far from it. She grew worse if anything could be worse. Intermittent malarial fever set in, complicating the case and making every sympton more pronounced and intense. By this time the pneumo-gastric nerves had become very seriously involved, and she had chronic Gastritis, and also what I may be allowed to call chronic intermittent malarial tover all at once. For the latter the physicians prescribed the good, old-fashioned sheet-anchor remedy, Quinne, gradually increases, the days with increasing the gast may seem—she actually ing the doses until-incredible as it may seem—she actually took THIRTY GRAINS A DAY FOR DAYS IN SUCCESSION. This could not last. The effect of the quinine was, if possible, almost as bad as the two-fold disease which was, if possible, almost as bat as the two-fold disease which was wearing away her strength and her life. Quinine poisoning was painfully evident, but the fever was there still. Almost every day there came on the characteristic chill and racking headache, followed by the usual weakness and col-

but of any appreciable rest in this long and dreary experience! Somewhat less than a year ago my wife showed signs of such utter exhaustion that her friends indulged the most or such utter exhaustion that her friends indulged the most serious apprehensions. About this time I met socially my friend Mr. Norton, a member of the firm of Chauncey Titus & Co., brokers, of Albany, who, on hearing from me these facts, said: "Why I have been through almost the same thing, and have got over it." "What cured you?" I asked, eagerly. "Kaskine." he said. "Try it, or your wife." thing, and have got over it." "What cured you? I asked, eagerly. "Kaskins." he said, "try it for your wife." I had seen Kaskine advertised, out had no more faith in it than I had in sawdust for such a case as hers. Mrs. Hall had no higher opinion, yet on the strength of my friend's recommendation i got a bottle and began its use as directed. Now recall what I have already said as to her then condition, and then read what follows: Under the Kaskine tread

tion, and their real winds symptoms showed instant improvement, and the daily fever grew less and soon ceased altogeth ment, and the daily fever grew less and soon ceased altogether. Side by side these diseases vanished, as side by side they had tortured their victim for ten years—the Dyspepsia alone having, as I have said, existed for twenty years. Her spectite improved from week to week until sine could eat and digest the average food that any well person takes, without any suffering or inconvenience. With renewed assimilation of food came, of course, a steady increase in test, until site now looks like her original seif. She still takes Kaskine occasionally, but with no real need of it, for she is well. I consider this result a scientific miracle, and the "New Quinine" is entitled to the credit of it, for from the time she began with Kaskine she used no other medicine whatever. kine she used no other medicine whatever.

If you think a recital of these facts calculated to do good you are welcome to make them public.
